

# CEMETERY CREMATION LAYOUT DIAGRAM

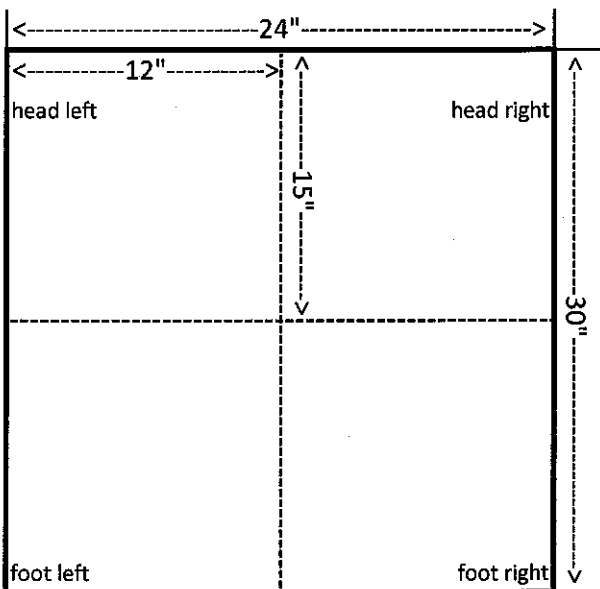

Sections 10-15

Sections 1-9

Cremation Plot

**Notes:**

- 1) The typical dimensions of a cremation hole is 16" high x 16" wide x 24" deep.
- 2) 36" wide is the general assumption of the width of the plots in sections 1-9, however the actual dimensions in the field may vary. Confirmation of the plot widths in sections 1-9 must always be confirmed prior to cremation layout.
