

## Curbside Pick-up Dos & Don'ts

Too far forward (in plow line)

- ✓ Have a cleared, level spot and pathway within 1m (3ft) of the snow bank/windrow of the plow. We recommend the right side of the driveway (when facing the street).
- ✓ Do not place Garbage and Recycling on top of snowbanks. They will not be picked up.
- ✓ Placing Garbage and Recycling containers out at 7am on the day of pick up will help avoid bags freezing to the ground and being buried by snow.
- ✓ Avoid using white bags as they have a tendency to be missed beside a white snow bank.
